

SALESIQ PROJECT CHARTER

August 19, 2026

Product Vision

SalesIQ is a digital sales book and financial intelligence platform designed to empower direct-to-consumer businesses and social commerce vendors with a single, structured system to keep every business transaction fully traceable while serving as a personal analytical tool to easily understand and track true business growth.

Product Objectives

Effortlessly record completed sales and inventory transactions.

Maintain centralized, reusable customer and product catalogs.

Generate and issue polished, professional digital invoices (payment receipts)

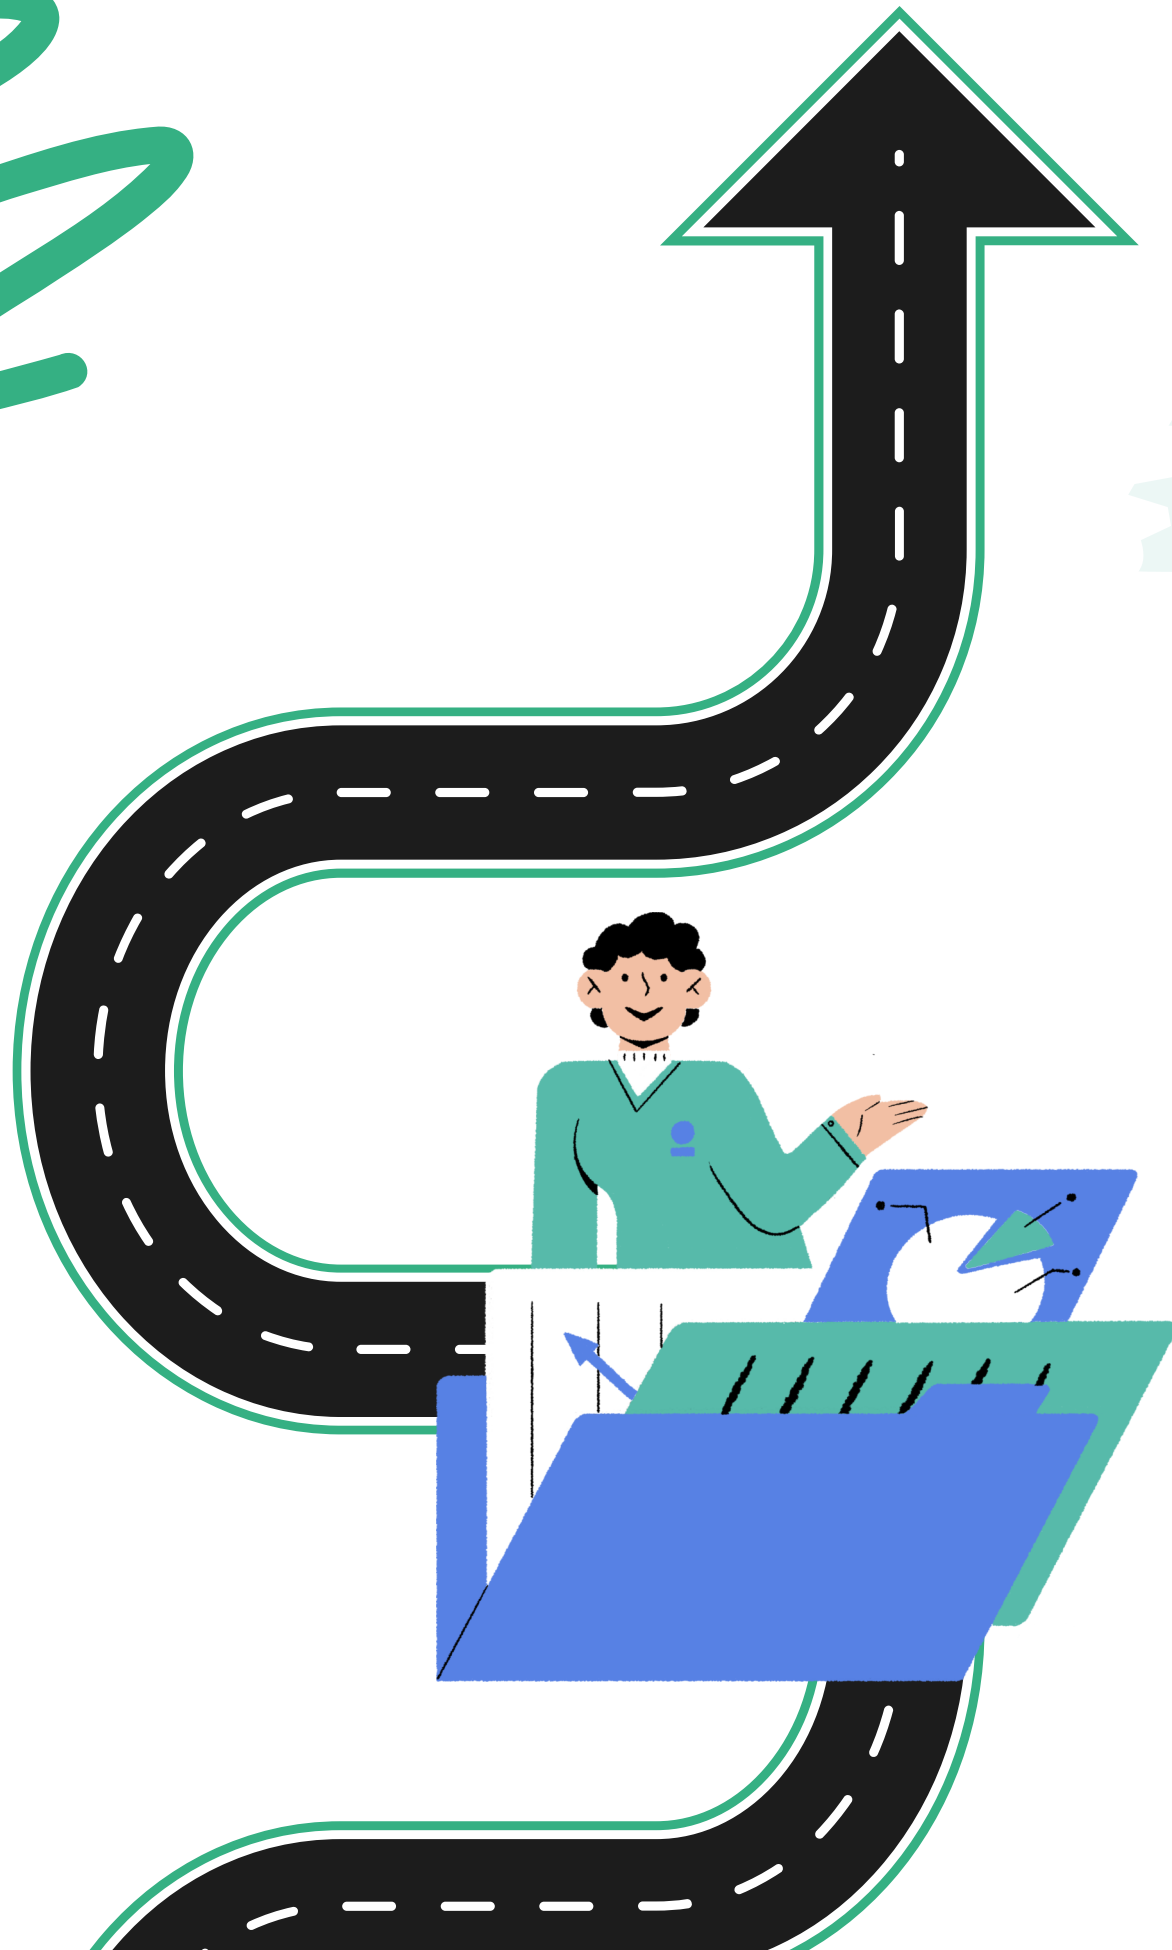

Automatically transform raw transaction data into actionable financial intelligence and business insights.

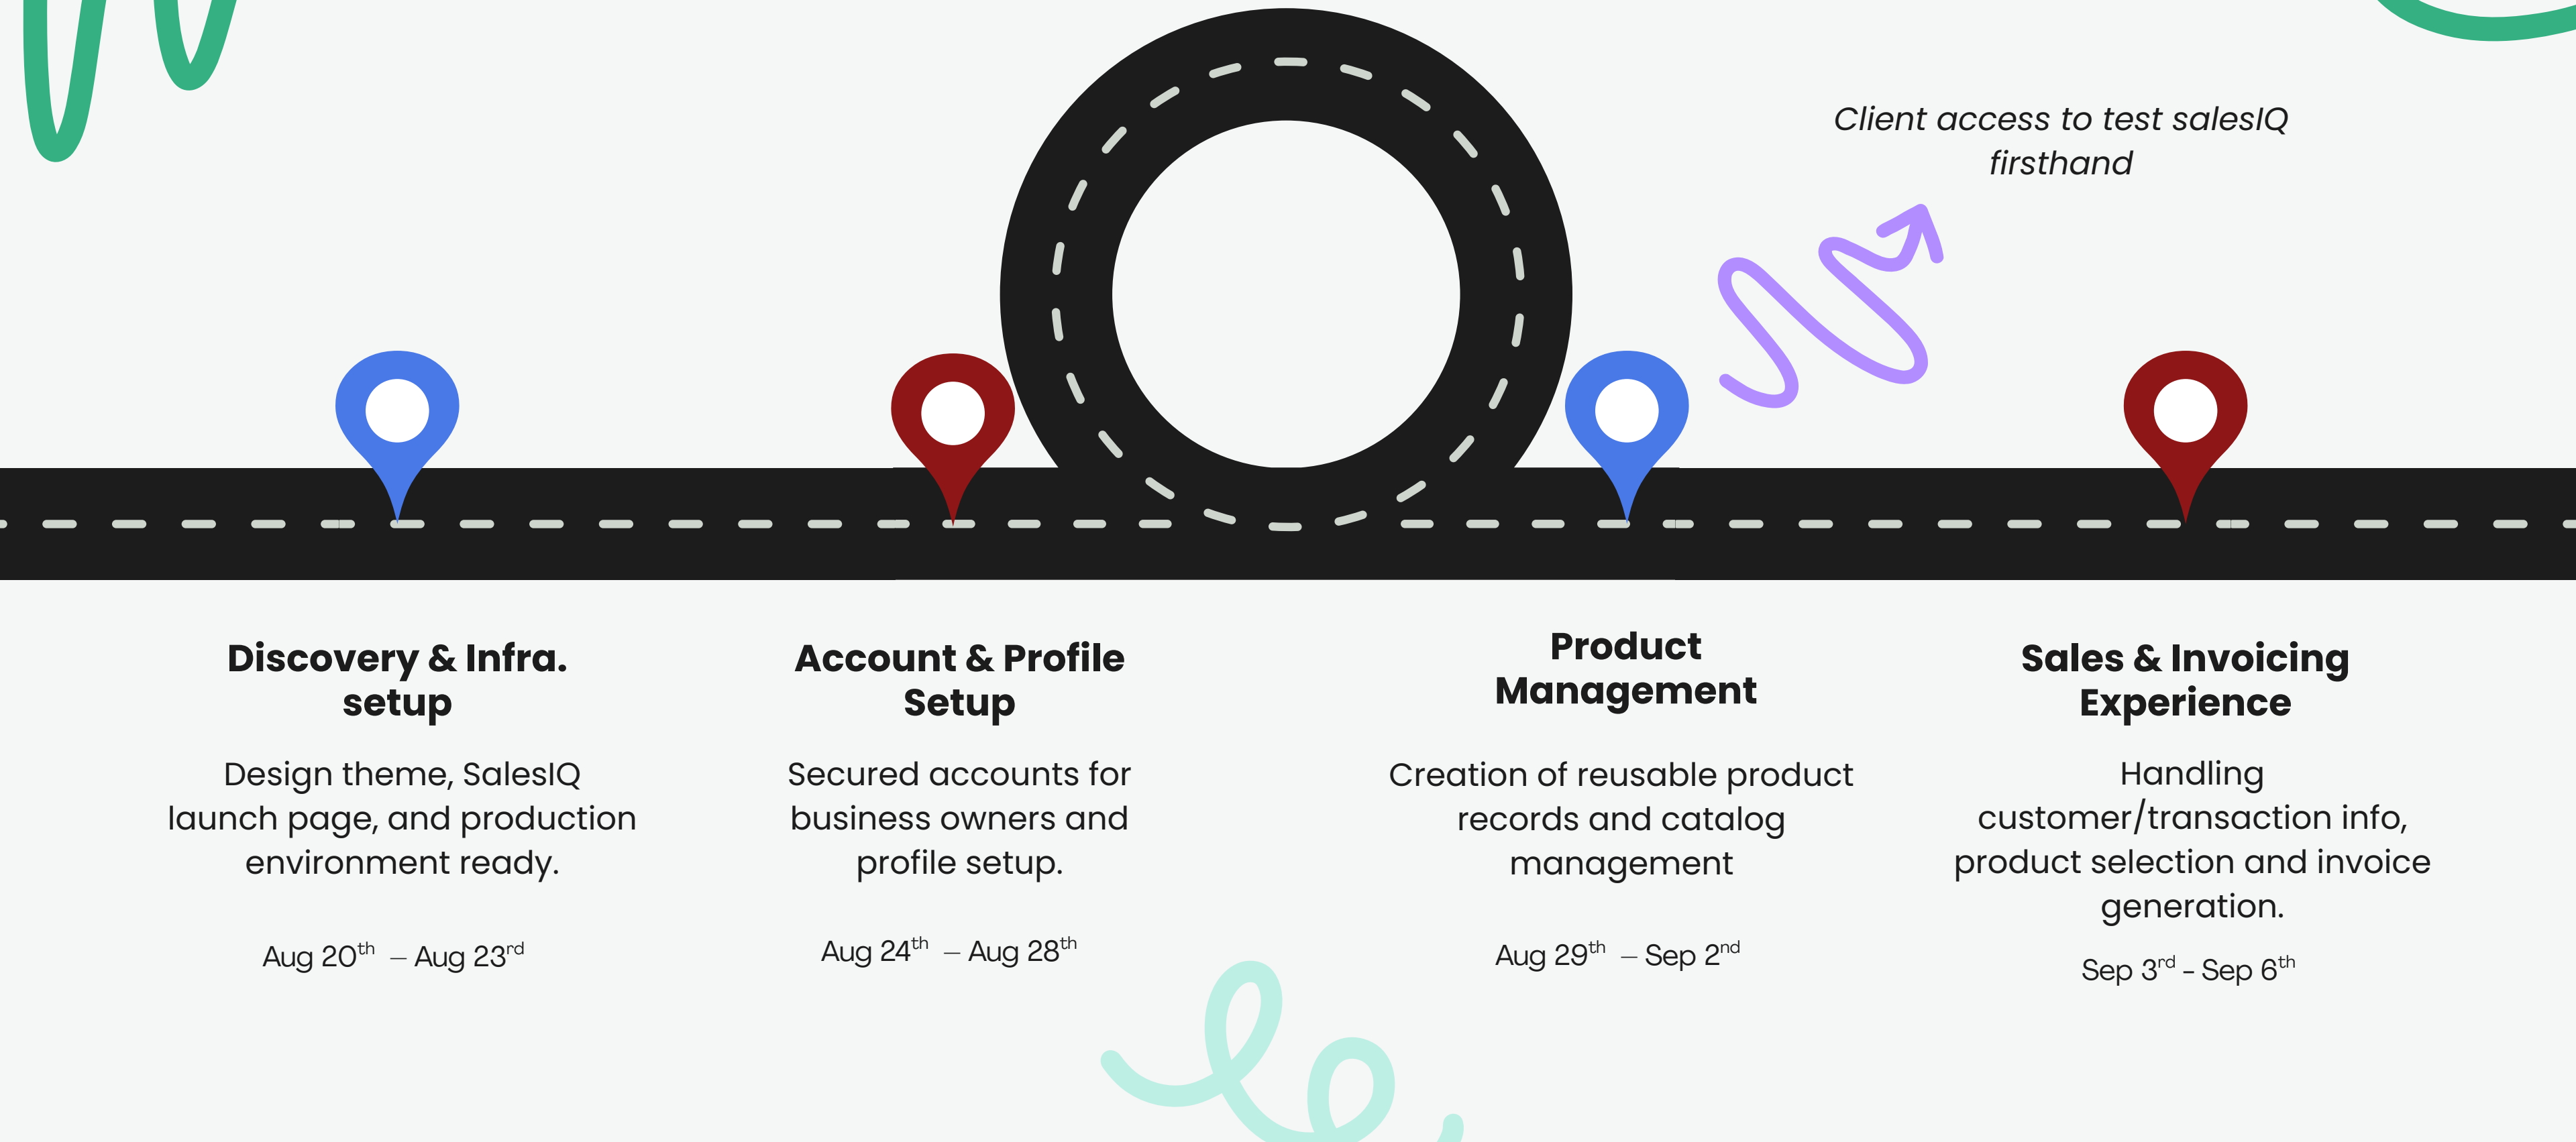

Project Roadmap

A clear, execution-focused roadmap designed
to drive the project from planning to delivery
with confidence **from August 20, 2026**

Key Milestones
